

Play Store App Publishing

Play Console Account

- Play Console Account -> \$25 Payment ontime
 - ID Verification -> Passport, NID
 - Mobile Number Verification
-

OLD VS New Play Console Account

- (OLD) App Publishing Test Optional
 - (New) App Publishing Test Mandatory -> 14 Days 12 Device Closed Test
-

App Publishing Steps

Step 1: Create jks File For Android (Password)(Name)(Others Information)

```
keytool -genkey -v -keystore ~/upload-keystore.jks -keyalg RSA \
    -keysize 2048 -validity 10000 -alias upload
```

Step 2: Android/app/upload-keystore.jks

```
build.gradle.kts
    signingConfigs {
        create("release") {
            keyAlias = keystoreProperties["keyAlias"] as String
            keyPassword = keystoreProperties["keyPassword"] as String
            storeFile = keystoreProperties["storeFile"]?.let { file(it) }
            storePassword = keystoreProperties["storePassword"] as String
        }
    }

    buildTypes {
        release {
            // TODO: Add your own signing config for the release build.
            // Signing with the debug keys for now, so `flutter run --release` works.
            signingConfig = signingConfigs.getByName("release")
        }
    }
}
```

Step 03: pubspec.yaml

```
version: 1.0.0+7
```

Step 04: App Logo Icon pubspec.yaml

```
dev_dependencies:  
  flutter_test:  
    sdk: flutter  
  flutter_launcher_icons: ^0.14.4  
  
flutter_launcher_icons:  
  android: true  
  adaptive_icon_background: "assets/icon/white_bg.jpg"  
  adaptive_icon_foreground: "assets/icon/app_icon.jpg"  
  remove_alpha_ios: true  
  ios: true  
  image_path: "assets/icon/app_icon.png"
```

Step 05: AndroidManifest.xml

```
<uses-permission android:name="android.permission.INTERNET" />  
<uses-permission android:name="android.permission.READ_EXTERNAL_STORAGE" />  
<uses-permission android:name="android.permission.WRITE_EXTERNAL_STORAGE" />
```

Step 06:

```
flutter clean  
flutter build appbundle  
build/app/output/bundle/release/app-release.aab
```

Play Console Closed Test

1. Create App
2. App details
3. Grow users/ Store listings
4. Store listing
 - App name
 - Short description
 - Full description
 - App icon
 - Feature graphic
 - Video
 - Phone screenshots (5/6)
 - 7-inch tablet screenshots
 - 10-inch tablet screenshots
5. Store settings

Closed testing

- App Version 1 Release
- Create Tester List / Email lists
- Join on Android Copy Link And Send to Tester
- Join Testing/Accept Testing / Accept Invitation
- Mobile App Install
- 12 Device 14 Days -> At least Daily 5min
- App Bug Find

- Bug Fix Version 2
- Bug Fix Version 3
- Tester Update From Play From Play Store After Every Update

Apply For Publish

- Apply For Publish
 - 7 Days
-

Full Process

- Time 14 testing + 7 Days Reviews = 21 ~ 25 Days
- After 70% Development Completed Start The Process -
- Incomplete feature - > click -> dialog -> coming soon
